PADI

Open Water Diver
Certification Program

The PADI Open Water Diver e-Learning program is an entry level course open to anyone 10 years of age or older. This program is the most convenient and economical way to learn how to scuba dive. You start by registering for the PADI eLearning Open Water Diver course through the link on our website. You will need a credit card to sign up. The fee for e-Learning is *\$146.00. Once you are registered you can dive into the educational portion of the Open Water course. It will take roughly 5 to 7 hours for you to complete the on-line portion of the program. As you make your way through the eLearning program you will be quizzed to insure you are fully understanding the materials that are being presented. You will also have the opportunity to interact with your instructor at School of Fish via eMail or by arranging an in-person tutoring session at our facility. There will be a 25 question written exam administered by your instructor once you have completed the eLearning program. Your confined water training will take somewhere between 4 to 6 hours to complete. This training will be completed in our on site heated salt water swimming pool. When you have completed the eLearning program and have mastered the skills you learned in the swimming pool you will be ready to complete your certification. To do this you will need to make four dives in the open water. We conduct open water training dives on weekends between the months of May and October. Referrals are an option for students wishing to complete the open water requirement during winter months.

Program Pricing and Equipment Requirements

• eLearning Enrollment -----	\$146.
• eLearning Enhancement Pak (additional educational materials) -----	\$ 53.
• Confined water sessions -----	\$225.
